Re: 2007 Yamaha 70hp

2 stroke compression

Probably the best way

to tell is take the

boat/motor out to the

lake/river and run it for

an hour or 2, all RPM's,

idle, wide open, listen

to the motor, look it

over carefully, check

the spark plugs, if it

runs good, sounds

good and looks good,

then it's most likely in

good shape, especially

for a later(2007)

model.
