A Manual Of Normal Neonatal

Although this is a manual of the management of well babies, resuscitation is covered in detail, as even after an apparently normal pregnancy and delivery a baby may be born unexpectedly depressed or apnoeic, or an apparently well baby may collapse suddenly shortly after birth.

A manual of normal neonatal care (Book, 1988) [WorldCat.org]

Apgar scores between 8 and 10 indicate that the neonate is making a smooth transition to extrauterine life; scores ≤ 7 at 5 minutes (particularly if sustained beyond 10 minutes) are linked to higher neonatal morbidity and mortality rates. Many normal neonates have cyanosis 1 minute after birth that clears by 5 minutes.
