### A Return To Healing Radical

A Return to Healing exposes what many of us in the healing professions have known for a long time: The business model not only doesn't work in medicine, it corrupts it. Dr. Len Saputo, along with co-author Byron Belitsos, give the reader a strikingly clear picture of how profit-driven medicine has gone terribly wrong -- poisoning good doctoring to near death.

A genuine return to healing requires that we combine regulatory reform with support for a transformed medical paradigm. Dr. Saputo's novel prescription for change draws from his front-line work as a cofounder of the Health Medicine movement and originator of one of America's first integrative medical clinics.

Describing his medical training and his own journey toward integrative medicine, he argues that there should be a return to healing and preventive medicine. He proposes a holistic approach which focuses on promoting a healthy lifestyle throughout the lifespan and applying integrative, preventive, and natural techniques while turning to invasive, expensive, allopathic treatments only as a last resort.

Nerve regeneration after radical prostatectomy (and the subsequent return of erectile function) usually does take some time, assuming that both nerve bundles around the prostate were able to be preserved by the surgeon. This is because the nerves and arteries that control erections need time to recover and heal.

I often think about moments of radical healing, like the one from today's Gospel, as rare and unseen in our ordinary everyday stories. Truthfully, I have read this Gospel countless times and my tendency is to write it off as unrealistic or inaccessible. Somewhere in my walk with the Lord, I internalized this notion that miracles are exclusively a thing of the early Church, or that putting my ...
