*Anatomy of Movement by Blandine Calais-Germain*

Anatomy of Movement (exercises) by Blandine Calais-Germain is a great addition to the first part of Anatomy of Movement. This first part I used for years to become more aware of my body and its movements. Like dancers also musicians should know about their body (and usually we are not taught about it at all beyond a casual 'relax' commentary).

Over a hundred new illustrations were added in this revised edition.

*Anatomy of Movement: Blandine Calais-Germain ...*

This work is truly by one who understands movement. Calais-Germain shows her respect for the logic of human anatomy and biomechanics, and reveals her experience in dance. The text is a necessity for all dance teachers and students in their pursuit of further knowledge of the art form. --Moira McCormack, MSc, ...
