Bilingualism in Language Development. There is a lot of research out there about bilingualism in language development AND research concludes.....that learning more than one language is FANTASTIC. However, there can be a lot of confusion out there, even between professionals, about how bilingualism affects language development.

## **Bilingualism in Language Development In Children**

Learning another language will not cause or worsen speech or language problems. Bilingual children develop language skills just as other children do. If your child starts having trouble in both languages, he may need help from a speech-language pathologist, or SLP. To find a speech-language pathologist near you, visit ProFind. Other Resources
