Here, based on various summaries of Darwin's life and work, is my attempt to think about how Charles Darwin, the ultimate heterodox scholar, would have scored on a measure of the Big Five.

Darwin's Personality | Psychology Today

Charles Darwin and the rest of the HMS Beagle crew spent only five weeks in the Galapagos Islands, but the research performed there and the species Darwin brought back to England were instrumental in the formation of a core part of the original theory of evolution and Darwin's ideas on natural selection which he published in his first book . Darwin studied the geology of the region along with giant tortoises that were indigenous to the area.

“clumsy English style of argument,” they retained the highest regard for Darwin’s scientific work for the rest of their lives. 5 In his own masterwork, Marx described *On the Origin of Species* as an “epoch-making work.” 6 In 1872 Marx sent a copy of *Capital* to Darwin ...

Marx and Engels...and Darwin? | International Socialist Review

In 18th and 19th century natural theology, adaptation was taken as evidence for the existence of a deity. Charles Darwin proposed instead that it was explained by natural selection . Adaptation is related to biological fitness, which governs the rate of evolution, as measured by change in gene frequencies.
