Did dinosaurs evolve into birds? Are there dinosaurs alive today? More than any other subject, dinosaurs are used to promote the idea of evolution. Museums, media and schools all proclaim that dinosaurs died millions of years ago. They also teach that the birds in your backyard are actually descendants of dinosaurs. But what is the truth?

These proto-pocket knives were small and folded which made for safe and easy carrying. Blades were made from iron or bronze and handles were made from bone or wood. A bone handle folding knife dating from 600BC has been found in Austria while several pre-Roman folding knives have been found in Spain.
