Displacement beyond conflict : challenges for the 21st ...

Beyond Conflict has created powerful and innovative frameworks to open pathways for progress in peace talks, transitions to democracy, and national reconciliation in the aftermath of division and violence in over 75 countries.

APPROACH - Beyond Conflict

Grounded in the belief that science is a right and self-awareness is an asset, the Guide unpacks the biological and psychological processes associated with the experience of forced displacement, including issues such as fear, anxiety, stress, trauma, guilt, shame, and hopelessness. It also specifically explores positive assets for cultivating resilience, including the science of neuroplasticity, belonging, and post-traumatic growth.

The Field Guide for Barefoot Psychologists - Beyond Conflict

Research published in December 2019 by the Internal Displacement Monitoring Centre shows that in 2018, Africa accounted for nearly 70% of all new internal displacement caused by conflict and violence in the world, and for 15% of internal displacement caused by disasters like floods, droughts and storms.
