Suzuki has dragged the outboard motor business in North America forward, while Mercury and others have been trying to dig their heels in and resist change. Here is what I am talking about: Modern four-cycle motors: Suzuki was the first outboard manufacturer to move their product line to an all four-cycle motor line-up.

The water pump on your Suzuki Outboard motor is designed to cycle water through the motor in order to keep it cool while it is running. But it can also pull sand and small shells into the water pump, which can damage the impeller, requiring the pump to need to be replaced. Suzuki uses a stainless steel impeller shaft ...
