### **Automatic and manual transfer switches - eaton.com**

Eaton's double-throw safety switches include two interlocked switches with a common connection used to transfer service from a normal power source to an alternate source, or to switch from one load circuit to another. The interlock ensures both switches cannot be closed at the same time, preventing them from being operated in parallel.

### **Automatic Transfer Switches | ATS | Controller | Eaton**

Eaton's complete line of automatic and manual transfer switches provide reliable switching to and from backup power sources when utility power fails. Mother nature strikes when you're least expecting it For over 100 years, Eaton has earned a global reputation as a leader in power management.
