~~ENGINE BUILD WORK SHEET - PROSIS PRO~~

It's available for PC or Mac and well worth the expense. Eventually you will also figure out ways to build other calculators and even turn them into databases for parts and equipment—perhaps make your own engine build sheets with blank spaces for entering specs and clearances.

~~Engine Build Sheet - wallaceracing.com~~

Most spec sheets begin with the basics, like "engine type" or "configuration." This tells you the number and arrangement of cylinders—i.e., "in-line six-cylinder"—and the aspiration, which indicates whether the engine is turbocharged or turbocharged and aftercooled; if the engine is neither, it will be described as naturally aspirated.

~~How to Build an Engine Math Spreadsheet - Muscle Car DIY~~

The following specifications are general guidelines offered to aide in building an engine for street use. For more detailed specifications regarding your specific application or for "strip only" use, please consult a professional engine builder. Pistons. Forged pistons recommended for all applications.
