transaction analysis. Most faculty agree that mastery of the accounting cycle is critical to success in financial accounting. And yet all other financial books introduce and develop transaction analysis in one chapter, bombarding a student early in the course with an overload of new concepts and terms. The authors believe that most faculty

Libby/Libby/Hodge wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is
