OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

Geometry Scavenger Hunt - dcet.k12.de.us

We have used the geometry scavenger hunt many times over the years in different ways and levels. When the kids were just learning their shapes, the goal for them was to recognize shapes in their environment. I might give them a card with a picture of a circle on it and then have them find a circle somewhere in the house or outside in the yard.
