Do it yourself, DIY home wiring information.

Some electrical systems are safer and easier to work on than others: Most low-voltage, telephone, doorbell, and cable television wires, for example, are relatively harmless and easy to handle compared to standard-voltage lights and sockets. Lights, sockets, and appliances are all connected to the primary standard-voltage system (230VAC to 240VAC) that is delivered through power lines by your electrical utility and then routed throughout your home's wiring.
