The Honda K20 engine is actually more like a family of engines that was first introduced in 2001. This engine series, the K-series, replaced the B-series of engines that had previously been used in these applications for 12 years.. The K20 engine series has a number of variants, typically after the K20A they start getting

problems, tuning

The Honda K20 is a four cylinder, four stroke engine that came out in 2001. This k20 engine gets rid of the old standard timings of engines of yesterday and uses computer ignition timings to help you get your car started which also brings better handling of the car.
