How To Change Manual Transmission

Manual Transmission Fluid Change Interval. The manufacturers of most vehicles recommend that you change your manual transmission fluid at least every 30,000 miles or at the most 60,000 miles, depending on the make and model of the manual vehicle. You'll want to check your car manual for the actual recommended interval. But if you are constantly putting your manual transmission under stressful conditions, then the fluid should be changed sooner, maybe even at 20,000 miles.
