Java Precisely, Third Edition | The MIT Press

After paying little attention to Java for about 10 years, I twigged that it might be prudent to catch up on what's been going on in this language. The ideal audience for this book is a programmer with experience in at least two languages--preferably one of them C-like, one of them designed with ...

Java precisely (eBook, 2016) [WorldCat.org]

Java Precisely provides a concise reference for the Java programming language and some of its essential libraries. The book covers Java 2, versions 1.3 and 1.4. It is intended both for students learning Java and for more experienced Java programmers. Though written informally, it describes the language in detail and provides many examples.
