I have a copy of my granddaughter's Algebra 1 textbook by McDougal Littell, but this workbook doesn't match up with it. They are different editions of the Algebra 1 book. I also expected more practice problems for added homework and tutoring, but although the workbook has an example of each topic, the practice problems are few.

I teach Algebra, and use this workbook for homework practice. It has 2 pages of problems for each section in the textbook, and page 2 is harder than page 1. There are NO ANSWERS in this workbook, to the dread of the students, but the answers are in the Teacher's Edition of the textbook, McDougal Littell Algebra 1 (McDougal Littell Mathematics).
