Machine Learning is a current application of AI based around the idea that we should really just be able to give machines access to data and let them learn for themselves. Artificial Intelligence has been around for a long time - the Greek myths contain stories of mechanical men designed to mimic our own behavior.

Algorithms That
Make Sense Data
Ebook Peter Mach

Course Description This course explores the vital new domain of Machine Learning (ML) for the arts. Though born out of computer science research, contemporary ML techniques are reimagined through creative application to diverse tasks such as style transfer, generative portraiture, music synthesis, and textual chatbots and agents.
