But how about philosophy of psychiatry? Why would Darwinian theory matter specifically to philosophy of psychiatry? We believe that there are three reasons why philosophers of psychiatry have taken an interest in evolutionary theory. First of all, there is the nascent field of evolutionary psychiatry. "Evolutionary psychiatry" and "Darwinian psychiatry" are umbrella terms used to refer ...

PHILOSOPHY Psychiatric treatment is not about feeling better, although most people do feel better. Treatment is about regaining freedom. People who are less confined by psychiatric conditions can function better, handle discomfort and find meaning in their lives. You may have been given multiple diagnoses, or maybe this is the first time you are seeking treatment.
