Is the Universe Made of Math? [Excerpt]

In this excerpt from his new book, Our Mathematical Universe, M.I.T. professor Max Tegmark explores the possibility that math does not just describe the ...

Is the Universe Made of Math?

[Excerpt] - Scientific American

To put it more bluntly, mathematics exists independent of humans -- that it was here before we evolved and will continue on long after we're extinct. The opposing argument, therefore, is that math is a man-made tool -- an abstraction free of time and space that merely corresponds with the universe. Just consider elliptical planetary orbits.

Mathematics: the man-made universe; an introduction to the ...

I think it was a good way, but tastes change. I took a quick look around the internet for the contents of current liberal-arts mathematics courses and found quite a few including topics like “financial mathematics” or “consumer mathematics”. It’s also a good thing to know about interest rates, but a choice has to be made.

Mathematics: The Man-Made Universe: An Introduction to the ...

Math generally plays a vital role in any theory of everything, but contemporary cosmologist Max Tegmark even goes so far as to theorize that the universe itself is made of math. In his mathematical universe hypothesis, he proposes that math is indeed a human discovery and

Mathematics: The Man-Made Universe (Dover Books on ...

Math is invisible. Unlike physics, chemistry, and biology we can't see it, smell it, or even directly observe it in the universe. And so that has made a lot of really smart people ask, does it ...

Is Math a Feature of the Universe or a Feature of Human Creation? | Idea Channel | PBS

Yes. Mathematics, even rudimentary, is all theory. Even $1+1$ is theory.

Mathematics are formulas man has conceived to solve problems they faced.

Take for example Pi. 3.14 is a number based on a formula, conceived from a theory. Numbers, symbols, equations are a fallacy. They do not exist in the universe, only in our minds to explain the universe.
