Studies About the Guidelines This document provides guidance in the methods, procedures, policies, and criteria that must be followed, and the information that is to be developed during a drainage study and hydraulic design.

Manuals and Handbooks

File Type PDF Mucous Drainage Manual Guide

Anal Mucus Discharge by Itself or in Stools Explained. Mucus is a slippery or slimy substance that is naturally produced by your bowels. It helps lubricate stool as it moves through the bowels and can protect bowel walls from more abrasive foods that you might eat (e.g. small seeds and nuts).
