Laws of Nature | Internet Encyclopedia of Philosophy

Natural Law Theory proposes that as physical laws of nature exist, so do universal moral laws. These laws disclose themselves to us upon close examination of the world and the nature of humans. Aspects of natural law theory date back to Plato, who posited the existence of transcendental “Forms” (Plato, 1992).

LAW121 - Natural Law Theory

Natural law does not dictate, for example, that we drive on the right hand side of the road. Human communities require a host of regulations simply in order to function (traffic and tax laws). But even these regulations are guided, albeit somewhat distantly, by natural law, i.e., by the requirement of natural law that health and safety be ...

Natural Law And The Two

Natural law (Latin: ius naturale, lex naturalis) is law as seen as being independent of, and pre-existent to, the positive law of any given political order, society or nation-state. Such genesis is seen as determined by nature (whether that reflects creation, evolution, or random chance), and a notional law of nature treated as objective fact that is universally applicable: That is, it exists ...

Natural Law Theory: Crash Course Philosophy #34

According to natural law moral theory, the moral standards that govern human behavior are, in some sense, objectively derived from the nature of human beings and the nature of the world. While being logically independent of natural law legal theory, the two theories intersect.

Natural Law - Definition, Meaning, Examples, and Theory

Natural Law holds that the law is based on what’s “correct.” Therefore, Natural Law finds its power in discovering certain universal standards in morality and ethics. The Greeks -- Socrates, Plato, and Aristotle emphasized the distinction between “nature” (physis, φύσις) and “law,” “custom,” or “convention” (nomos, νόμος) .
