## **Basics**

Lighting design requires a technical understanding of electricity, light sources, and vision while also a sensitivity to architectural and aesthetic issues. The end design needs to meet the visual requirements for human eyes performing an endless array of tasks while also illuminating the architectural forms and

Band lighting

is...(typically) isolated  
and lower in brightness

than other types of  
lighting. Some band

looks include lighting  
the audience via

blinders and moving
