For patients with advanced cancer, end-of-life conversations with clinicians take place a median of 33 days before a patient's death, research shows. When patients have end-stage diagnoses, fewer than a third of families recall having end-of-life conversations with physicians, another study found.

Doctors Learning How to Have End-of-Life Conversations

Physician Assistant Study Guides . Hello! I finished PA school a few years ago and figured I would post all the study guides that I made. I have also started making cheat sheets for various topics that I encounter in my job (I work mostly in neurology and part time in addiction medicine). I hope these are helpful!
