DIYnot ...

potterton EP3000 user manual | DIYnot Forums

I think the Potterton EP6002 would give me what I want, 3 separate on/off times per day and independent control/timing for central heating and hot water, where the EP3001 gives 2 on/off and water/heating has to be on/off at the same time. Think a new controller would help me reduce my heating bills.

Tips

Q: Looking at the installation guide when setting up operation it states refer to table for correct operation choice the table only calls out the old potterton 6002,3002,2002,2000 units. What do you select if you are replacing an ep3000 with this controller unit. I will be using the existing backplate A: If you have 1 or more motorised valves use ID 1-6 depending on how many on/off's and daily ...
