Rotel RC-995/RB-990BX Amplifier Design of this pair of the two-unit Rotel amplifiers "top" models is laconic and strict; it resembles the English "peers" in black tuxedos. Credo of the Rotel Company is "the production of affordable audio components with the highest possible sound quality".

Because the Rotel is capable of bridged-mono operation, I also tried two of 'em as monoblocks. Sound If you've read my description of the Adcom GFA-535 II's sound, then you know I preferred the Rotel RB-960BX's. The Rotel isn't a perfect amplifier, but I found it much more forgiving of the typical budget gear it's likely to be matched with.

ROTEL RB-990BX POWER AMPLIFIER The ROTEL RB-990BX stereo power amplifier / main amplifier was Rotels top model at the time. With its extremely low distortion levels, excellent triple output stage and a dynamic power of 1220 watts @ 1 ohm it still beats a lot of the more modern power amps. (In case you use only one

The RB-990BX/RB-1080X can be had for \$600-800 on ebay - a steal if you find one. For the many years I've had these amps I've only had two reapirs, that were both less that \$100 US. A bargain. I still like my MC-2500 pairs, and MC-2255 pairs, but the rotel are really close and priced right if you can snag them. Enjoy!!

As a reviewer who has focused on seeking out high-quality audiophile gear for cost-constrained readers, I'm embarrassed to say that the flagship RB-991 stereo amplifier is the first Rotel product I've had in my house. (To be fair to myself, this 38-year-old family-owned company did not develop a large US market presence until this last decade.)

RB-990BX dodaje do tego znacznie lepszy wgląd w dalsze plany, źródła pozorne są wyraźniejsze, lepiej definiowane, zawdzięczają to wyraźnym konturom. Rotelowa szkoła brzmienia może nie jest na audiofilską modłę neutralna, ale jest po prostu fajna, daje uciechę ze sluchania, nie sposób się nudzić.

Rotel vs B&K. The Rotel rb-990bx sounds clearer and less strained than the b&k ex-440. Though both are rated at 200 wpc, the rotel some how sounds as if it has more power. But the rotel has a bent back, as if someone rested it on it's back. No other damage was seen.
