[Samsung Dlp Light Engine Problems](#)

What can prevent a DLP TV from turning on and the light to blink 9-10 times? This could be bad capacitors on several boards inside the chassis. As seen above, DLP televisions may be an older technology but are still popularly used. Troubleshooting their problems throws light on the need to replace faulty parts. This can prove to be expensive.

[SAMSUNG LED Light Sourced DLP Rear Projection HDTV Is The ...](#)

Anyone here with a Sammy DLP that had a light engine replaced. Just got one replaced under an extended warranty on my 72". Warranty is good until August. Problem is I was told Samsung no longer makes new engines. Everything is all refurbished. Issue was a bad dmd board. Dreaded white spots issue. So the 1st attempt failed.

[DLP Light Engine issues | SatelliteGuys.US](#)

Based on the symptom being experienced, this problem is fairly common and is because the Samsung projection TV uses the Texas Instruments “DLP” chip in its light engine. These chips contain thousands of tiny mirrors. The dots or pixels being observed are essentially these tiny mirrors failing.

[Samsung Projection TV Troubleshooting Questions Answered](#)

the problem with the semi-transparent vertical bar on either side is due to a faulty light tunnel. repairing this is much more cost effective than replacing the light engine out of warranty, but...

[TV Light Engines for Samsung for sale | eBay](#)

Its really a matter of pulling the light engine, which is like a motherboard, opening the enclosure, removing the heatsink, replacing the chip, then reassembling in reverse order. It took me an hour to replace the led and dlp chips and get everything slapped back together. Set it good as new. A lot cheaper than buying a new 65" set.

I have a SAMSUNG DLP hln617w1x/xaa and its broke. Here is what has happened. First, I got the three blinking lights at power up, I looked in the manual and it said to replace the bulb, which I did. I got the new bulb replaced it and it worked for about another week. Again back to the same problem, 3 blinking lights. Funny enough, when

Sadly, I am back again regarding problems with my Samsung DLP -HLN5065WX/XXA. Here is the situation: ... and it did seem to have some resistance when spinning it by hand. I found a complete new light engine online for not much more than the color wheel itself, so I purchased that and just installed it. The tv is much quieter now on start up.

[Samsung TV Light Engine for sale | eBay](#)

The engine is also mercury-free making it more environmentally friendly. "The LED Light Sourced DLP RPTV once again demonstrates Samsung's commitment to advancing the boundaries of technology innovation and design excellence," said Dan Schinasi, Senior Marketing Manager for Projection TV for Samsung Electronics America.

I started a thread a couple of weeks ago when my Samsung DLP TV is already much broke.here thread about problems with the engines. Samsung DLP Samsung original light LED DLP rear projection HDTV, the first ever launched in the world, offers consumers a range of benefits.

[SAMSUNG DLP 3-BLINKING LIGHTS OF DEATH | Electronics Forums](#)

The light wheel was a bit “noisy” but the lamp wasn’t burned out. The real problem was a bad connection between the lamp and the processor which caused the lamp to turn itself off. Both the Best Buy and Samsung tech said that I needed a new Light Engine which would have cost around \$1500 plus an additional \$200 for installation.
