I have two
Pyrotronics/Siemens
SXL-EX boards with no
display. The problem
started when someone
tried to use the 24 volt
battery charging
circuit. They used this
same power on the
alarm contacts on the

The system is still active, however, the SXL-EX is gone, and everything is wired in to the MS-5210UD. The

Access Free Sxl Ex Programming Manual

school system has a contract with our local Fire-Lite distributor, so I assume they didn't want to bother with the SXL-EX or couldn't change the programming (they renovated the media center and cafeteria).
