Bilingual Minds. Speaking two languages can be handy when traveling abroad, applying for jobs, or working with international colleagues. But research has revealed that bilingualism influences the way we think and process information.

### **Bilingual Minds - Association for Psychological Science - APS**

There is a myth that bilinguals express their emotions in their first language (when they haven't acquired both languages simultaneously), usually the language of their parents. Like all myths, there are instances when it is true. Thus, a Portuguese-English bilingual who acquired English at age fourteen...
