The Moral Landscape: How Science Can Determine Human Values by Sam Harris Bill Meacham finds Sam Harris's book intriguing but frustrating. In this book, Sam Harris, a noted New Atheist, asks us to consider two lives: Life A: Imagine that you are an illiterate and homeless African woman whose husband has disappeared.

The Moral Landscape: How Science Can Determine Human ...

In The Moral Landscape, Sam Harris (2010) proposes that science can be used to identify values, which he defines as "facts that can be scientifically understood: regarding positive and negative social emotions, retributive impulses, the effects of specific laws and social institutions on human relationships, the neurophysiology of happiness and suffering, etc." (pp. 1-2). Harris argues that scientific principles are appropriately applied in this

The Moral Landscape tackles the idea of morality and argues against the notion that good and evil, and right and wrong, are unanswerable by science.

CFI-NYC | Sam Harris: The Moral Landscape

The Moral Landscape is brimming with liberal political ideology, which seems to be Harris' substitute for the failure of science to provide definitive answers to moral questions. If you are a liberal atheist, you will probably love the book, although it certainly does not address the question that its title suggests.

Book Review: The Moral Landscape by Sam Harris

I was one of those who had unthinkingly bought into the hectoring myth that science can say nothing about morals. The Moral Landscape has changed all that for me. Moral philosophers, too, will find their world exhilaratingly turned upside down, as they discover a need to learn some neuroscience.

The Moral Landscape | Sam Harris

To point out non-epistemic motives in an others view of the world, therefore, is always a criticism, as it serves to cast doubt on a persons connection to the world as it is.” — Sam Harris, The Moral Landscape: How Science Can Determine Human Values.

The Moral Landscape Quotes by Sam Harris

Ryan Born: In issuing the Moral Landscape Challenge, you suggested some ways to refute your claim that questions of morality and value have scientific answers. One was to show that “other branches of science are self-justifying in a way that a science of morality could never be.”

The Moral Landscape Challenge | Sam Harris

In The Moral Landscape: How Science Can Determine Human Values, Sam Harris's goal is to show how moral truth can be backed by "science", or more specifically, empirical knowledge, critical thinking, philosophy, but most controversially, the scientific method.
