The Political Economy of Regionalism - Google Books

The Political Economy of Regionalism: The Case of Southern Africa challenges prevailing wisdom, showing how ruling political elites and 'big business' join forces with certain external actors in order to promote market integration and economic globalization, boost regimes, and to satisfy group-specific and even personal interests.

In politics, regionalism is a political ideology focusing on the "development of a political or social system based on one or more" regions and/or the national, normative or economic interests of a specific region, group of regions or another subnational entity, gaining strength from or aiming to strengthen the "consciousness of and loyalty to ...

Regionalism (politics) - Wikipedia

Regionalism has been 'brought back in' since the late 1980s. There is an intense and at times rather refreshing debate on the origins, dynamics, institutionalisation and effects of regionalism. With some exceptions, however, the discussion is

country to unite or to separate. We find that smaller regions have greater incentives to unite, relative to larger regions. We show, however, that on the whole, majority voting on separation and union generates excessive incentives to separate. This leads us to examine the scope of alternative political institutions and rules in ...
