Mainly the input shaft and low range gear extremely worn. I have a White 2255 that I gutted out the rear because high gear was welded to the pinion shaft sleeve. Haven't had the time to get it finished and now I have another major project. I'm glad I have the factory manuals for the 2-135, 2-155, 2-180. Never thought I'd have to use it so much.
