The bucket will be sized to the tractor, and should lift a heaping load of soil or gravel. If I may offer some minor cautions, fitting and installing is not a job for most amateurs. On small tractors, especially with turf tread, it's good to have 4WD when you need it, and with a full load under non-optimal conditions you may need it.

Yanmar tractors in the US market are designed for a broader variety of tools - blades, mowers, and so forth. Yanmar tractors for the US are also designed so that they comply with OSHA and other safety regulations. A "gray market" tractor just refers to a tractor made for the Japanese market that has been brought to the US legally.
